PROGRAM	BENEFIT	ELIGIBILITY REQUIREMENTS*
<i>Income Tax Credits</i>		
Jobs Tax Credit	In Mississippi, companies receive a corporate income tax credit for creating jobs. These credits are equal to a percentage of payroll for each newly created job. Companies can either use these credits, which range from 2.5% to 10% of payroll depending on the business location, or they can opt for a job training grant as a direct reduction of workforce training costs. Credits are available for a five-year period and are taken in years two through six after jobs are created. Job training grants can cover up to 75% of the cost of training employees and range from \$1,000 to \$2,000 per worker, depending on the business location.	A business must create and maintain between 10 and 20 jobs, depending on the location of the company's operations. Eligible businesses include: warehouses, distributors, wholesalers, manufacturers, processors, research and development facilities, data, information processing and telecommunications enterprises and technology intensive industries.
Rural Economic Development (RED) Tax Credit	An income tax credit used in conjunction with Mississippi Business Finance Corporation-issued industrial revenue bonds is available. Based on the amount of bond-related debt service, credits can be used to offset up to 80% of a company's state corporate income tax liability each year for the life of the bonds.	Distribution or warehouse facilities or manufacturing, telecommunications or data processing operations in Mississippi utilizing industrial revenue bonds issued by the Mississippi Business Finance Corporation may apply.
Ad Valorem Tax Credit	An income tax credit equal to the ad valorem (property) taxes a company pays on inventory is available.	Distributors, wholesalers, manufacturers, processors or retailers are eligible.
<i>Sales and Use Tax Exemptions</i>		
Sales and Use Tax Exemption for Bond Financing	A sales and use tax exemption is available for eligible businesses that have obtained bond financing through the Mississippi Business Finance Corporation. A sales and use tax exemption is also available on building materials purchased directly by the company.	All businesses using industrial revenue bonds issued through the Mississippi Business Finance Corporation are eligible.
<i>Property Tax Incentives</i>		
Fee-in-Lieu	A company may be approved by local authorities to pay a fee in lieu of standard property taxes. This negotiated fee is valid for 10 years but cannot be less than 1/3 of the property tax levy.	Local units of government may consider a fee-in-lieu agreement when a company's private investment in land, building(s) and equipment exceeds \$100 million.
